COUNTY ACTION REQUESTED ON: Purchase of E-One Low Pressure Sewage Grinder Pumps

HISTORY, FACTS, AND ISSUES: E-One sewage grinder pumps are used in conjunction with low pressure force mains in residential neighborhoods where gravity force mains are unavailable. The County adopted the E-One specifications as the pump to be used with our low pressure sewage system several years ago. These pumps are initially purchased by the County. Once the pumps are installed, the builder then assumes the cost. At this time the County has over 600 customers utilizing E-One pumps. Wascon Inc. is the sole source dealer of E-One pumps for the state of Georgia. Currently, demand is at a level that our purchases exceed \$10,000.00 per month.

OPTIONS: 1. Allow County Manager to approve E-One Pump purchases
2. Board's Pleasure

RECOMMENDED ACTION: Board's Pleasure

ADMINISTRATIVE COMMENTS AND RECOMMENDATION:

County Manager

Action Taken By Board: _____
