The Honorable Bill Slaughter, Chairman  
Members of the Lowndes County Board of Commissioners  
And Citizens of Lowndes County

The Comprehensive Annual Financial Report of Lowndes County, Georgia for the fiscal year ended June 30, 2015, is submitted herewith. Responsibility for both the accuracy of the data and the completeness and fairness of presentation, including all disclosures rests with the County. We believe the data presented is accurate in all material respects and that it is presented in a manner designed to fairly set forth the financial position and results of operations of the County as measured by the financial activity of its various funds. All disclosures necessary to enable interested citizens to gain a reasonable understanding of the County's financial activities have been included.

This report consists of management's representations concerning the finances of Lowndes County, Georgia. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects. All disclosures necessary to enable interested citizens to gain a reasonable understanding of the County's financial activities have been included.

The County's financial statements have been audited by Henderson & Godbee, LLP, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of Lowndes County for the fiscal year ended June 30, 2015, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the County's financial statements for the fiscal year ended June 30, 2015, are fairly presented in conformity with generally accepted accounting principles. The independent auditor's report is presented as the first component of the financial section of this report.

Governmental accounting standards require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management’s Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The County’s MD&A can be found immediately following the report of the independent auditors.

## REPORTING ENTITY

---

---

Lowndes County was originally established as a Georgia county on December 23, 1825 by an Act of the General Assembly of Georgia. The Board is comprised of one chairman, elected county wide, and five commissioners each elected from a separate commission district serving four year staggered terms. Daily operations are directed by a County Manager who is appointed by and responsible to the Board of Commissioners. The County provides services to approximately 113,523 residents living in a 510.7 square mile area. Services provided include judicial services including the Superior, State, Magistrate, Probate and Juvenile Courts and the District Attorney and the Public Defender. The County provides public safety including the Sheriff’s office, 911 emergency communications, animal control, emergency medical services and fire protection. Public works services include road maintenance and construction and building maintenance. The County provides health and welfare services through the public health department, the Department of Family and Children Services and mental health services through Behavioral Health Services of South Georgia. Culture and recreation are funded and provided through a separate millage for the Valdosta-Lowndes County Parks and Recreation Authority and appropriated funds to the South Georgia Regional Library. Economic development is supported through a separate millage for the Valdosta-Lowndes County Development Authority and appropriations to the Moody Support Group.

The incorporated areas of Lowndes County consist of five municipalities which are the cities of Dasher, Hahira, Lake Park, Remerton and Valdosta. Each city is governed by a mayor and city council.

The financial statements contained herein include all the activities and functions of Lowndes County that are under the jurisdiction of the Board of Commissioners, as set forth in state and local law. Additionally, three component units are included in these financial statements because of their operational and financial relationships to the County. The Lowndes County Board of Health provides numerous health services to all county residents. The Valdosta-Lowndes County Development Authority provides assistance to new and present business to operate and expand business in Lowndes County. The Valdosta-Lowndes County Parks and Recreation Authority provides recreation services to all county residents.

## NATURAL FEATURES AND LAND USE

---

---

Lowndes County is located on the Florida border with a major interstate highway system (I-75) that is utilized by many tourists to visit Florida’s vacation attractions from across the United States and Canada. The County also has a major state highway that provides commerce and tourism the ability to reach the Georgia coast.

The County has experienced slow steady growth in residential and commercial development in the last 10 years which included the economic recession. The real and personal property tax digest has grown an average of 1% over those years. Through planning and zoning the County attempts to maintain a balanced use of land and provide defined areas for residential growth and development as well as areas for commercial and industrial growth. At the same time the County is also expanding recreational land use through the development of new parks. The County is also protective of land use within the areas close to Moody Air Force Base to prevent encroachment that would hamper the mission of the base.

## POPULATION

---

---

The County population has grown 17.39% in the last ten years. The growth has been driven in part by the expansion of missions at Moody Air Force Base, growth at the local state University, growth in industrial and commercial job opportunities and most recently by an increase in retirees looking for lower cost alternatives to traditional retirement locations. New housing developments are keeping pace with this growth and the County continues to expand roads and water and sewer systems to keep the infrastructure at the levels needed to meet the demands of growth.

## ECONOMIC CONDITION AND OUTLOOK

---

---

Lowndes County provides many state mandated and other services that are the economic back bone for the local economy. Like many counties, Lowndes County is providing new services, which in the past were considered municipal services, to the fastest growing sections of the county in the unincorporated areas.

To assure that the financial strength of Lowndes County is maintained, the financial policies of the County require that the County maintain 120 days of operating expenditures as a fund balance reserve. This policy has been instrumental in achieving excellent ratings from the bond rating agencies.

In November 2012, Lowndes County received an Aa2 rating from Moody's Investors Service and an AA- rating from Standards and Poor's. These ratings provided by these independent services demonstrate the conservative and sound fiscal policies that Lowndes County has developed as a management philosophy.

The County has averaged 8.3% unemployment rate the last five years compared to a State average of 8.7%. County population has grown 1.46% since the 2010 census which showed a population of 109,233. County local option sales tax collections were up by 2.14% over the prior year. The gross tax digest had a growth rate of .36% over the prior year.

New industry growth as well as growth of existing industries continues to be steady. Construction is increasing especially for new homes near Moody Air Force Base to provide housing for expanded missions at the base.

## MAJOR INITIATIVES

---

---

### For The Year:

Due to the slow growth and decline of some revenue, the County focused on improving services with established departments and employees. The County continued the review of the Code of Ordinance to ensure citizens safety and quality of life. The County also continued education programs for citizens to learn more about how County government operates.

The focus of the County during these poor economic times has been to maintain the financial strength that the County has established over many years.

The County will continue the expansion work that is part of their water and wastewater service five year capital improvement master plan which was prepared by Ingram & Watkins, LLC now that a new SPLOST has been approved by the voters and began January 1, 2014.

### For The Future:

The County will continue to budget conservatively as it has in the past and will provide the vital services to County residence as economically and efficiently as possible.

Capital improvements that are important to the delivery of services or assist with economic development will be provided as needed. The current approved SPLOST will provide many of the capital improvements required for delivery of services including public safety and public works vehicles and equipment.

The County has changed insurance intermediaries effective January 1, 2014 in an attempt to reduce rising cost of the self-insured health plan. For FY15 this change resulted in a drop in claims being paid out and lower health care cost to all funds and departments of the County.

## RELEVANT FINANCIAL POLICIES

---

---

The management of Lowndes County has established a comprehensive internal control system that is designed both to protect the county's assets from theft, loss, or misuse and to compile sufficient reliable information for the preparation of the County's financial statements in conformity with generally accepted accounting standards. Because cost of internal controls should not outweigh their benefits, the County's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance of the safeguarding of assets and the proper recording of financial transactions.

## AWARDS AND ACKNOWLEDGEMENTS

---

---

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting for the fourth year to the Lowndes County Board of Commissioners for its comprehensive annual financial report for the fiscal year ended June 30, 2014. In order to be awarded a certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legible requirements.

The County was also awarded the Distinguished Budget Presentation Award for the fiscal year ending June 30, 2015. This is the tenth consecutive year the County has received this award. In order to qualify for the Distinguished Budget Presentation Award, the government's budget document was judged to be proficient in several categories, including as a policy document, as an operation guide, as a financial plan and as a communication device.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate. The Distinguished Budget Presentation Award is also valid for a period of one year and we believe our 2016 fiscal year budget document continues to conform to the requirements of the award.

Appreciation is expressed to all members of the Finance Department staff and to our financial consulting firm, Tillman & Tillman, LLP for their contribution toward preparation of the CAFR as well as the direction and support of the County Manager's Office.

We also wish to acknowledge the leadership on the Board of Commissioners in its guidance of the financial affairs of the County.

Respectfully,

Stephanie Black

## INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners  
Lowndes County, Georgia

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Lowndes County, Georgia as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Lowndes County Board of Health and the Valdosta-Lowndes County Parks and Recreation Authority which represents 34.63% and 84.49% of the total assets and revenues of Lowndes County, Georgia's component units as of and for the year ending June 30, 2015, respectively. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the Lowndes County Board of Health and the Valdosta-Lowndes County Parks and Recreation Authority, is based on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, based on our audits and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Lowndes County, Georgia, as of June 30, 2015, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Change in Accounting Principle**

As described in Note 1T to the financial statements, in 2015, the Lowndes County, Georgia adopted new accounting guidance, *GASB Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*, and *GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68*. These standards changed the accounting and disclosure requirements for pension plans. Our opinion is not modified with respect to this matter.

### **Other Matters**

#### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, (on pages 12 through 22), budgetary comparison information (on pages 79 through 87) and the schedules of historical pension information and the related notes (on page 88 through 93) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion

or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

*Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Lowndes County Georgia’s basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, financial schedules, and budgetary schedules, and the statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, financial schedules, and budgetary schedules, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statement and schedules and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated January 27, 2016, on our consideration of Lowndes County Georgia’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Lowndes County, Georgia’s internal control over financial reporting and compliance.

**MANAGEMENT DISCUSSION AND ANALYSIS**

---

LOWNDES COUNTY, GEORGIA  
Management's Discussion and Analysis  
Required Supplemental Information  
For the Year Ended June 30, 2015

As Management of Lowndes County, Georgia, we offer readers of the County's basic financial statements this narrative overview and analysis of the financial activities of the County for the year ending June 30, 2015. This discussion is intended to: 1) assist the reader in understanding significant financial issues; 2) provide an overview of the County's financial activities; 3) identify changes in the County's financial position; and 4) identify individual fund issues or concerns. We encourage our readers to consider the information presented within this Management's discussion and analysis in conjunction with the basic financial statements.

**Financial Highlights**

Key financial highlights for FY14 are as follows:

The County's total net position increased by \$3,721,157.

At the end of the current year, the County's governmental funds reported an ending fund balance of \$30,636,231 an increase of \$4,736,940 from the prior year fund balance. The total unassigned governmental fund balance is a positive amount of \$3,130,470.

At the end of the current year, unassigned fund balance for the General Fund was \$3,130,470 which represents 6.13 percent of total General Fund expenditures.

Net position for business-type activities increased from \$32,937,985 to \$34,054,469, an increase of \$1,116,484.

**Overview of the Financial Statements**

This annual report consists of a series of financial statements. These statements are organized so the reader can understand the County as a financial whole or as an entire operating entity. The statements also provide a detailed look at specific financial conditions.

The County's basic financial statements are comprised of three components: the County-wide financial statements, fund financial statements, and notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-Wide Financial Statements**

The Government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business reporting. All governmental and business-type activities are combined to arrive at a total for the primary government.

LOWNDES COUNTY, GEORGIA  
Management's Discussion and Analysis  
Required Supplemental Information  
For the Year Ended June 30, 2015

**Statement of Net Position and the Statement of Activities**

The statement of net position presents information on all of the County's assets and liabilities, with the difference between the two reported as net position. The statement of activities presents information showing how the County's net position changed during the current year. These statements are prepared using the accrual basis of accounting similar to the accounting method used by private sector companies. This basis of accounting takes into consideration all of the current year's revenues and expenses, regardless of when the cash is received or paid.

The change in net position is important because it tells the reader whether, for the County as a whole, the financial position of the County has improved or diminished. However, in evaluating the overall position of the County, non-financial information such as changes in the County's tax base and the condition of the County's capital assets will also need to be evaluated.

In the statement of net position and the statement of activities, the County is divided into three kinds of activities:

**Governmental Activities**—Most of the County's programs and services are reported here, including general government, judicial, public safety, public works, health, human services, culture and recreation and housing and development. These services are funded primarily by taxes and intergovernmental revenues, including federal and state grants and other shared revenues.

**Business-Type Activities**—These services are provided on a charge for goods or services basis to recover all or most of the cost of the services provided. The County's Water and Sewer, Landfill, and Special Lighting Districts operations are reported here.

**Component Units**—The County's financial statements include financial data of the Valdosta-Lowndes Development Authority, the Lowndes County Board of Health and the Valdosta-Lowndes County Parks and Recreation Authority. These component units are described in the notes to the financial statements. The component units are separate and may buy; sell, lease, and mortgage property in their own name and can sue or be sued in their own name. Each of these entities issue separate annual audit reports.

**Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objects. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. Fund financial statements provide detailed information about the County's major funds. Based on the restriction on the use of moneys, the County has established many funds that account for the multitude of services provided to our residents. The County's major governmental funds are the General Fund, the Capital Projects Public Roads Fund and the Capital Projects Special Purpose Sales Tax VII Fund.

LOWNDES COUNTY, GEORGIA  
Management's Discussion and Analysis  
Required Supplemental Information  
For the Year Ended June 30, 2015

*Governmental Funds*—Governmental funds are used to account for essentially the same functions reported as governmental activities on the government-wide financial statements. Most of the County's basic services are reported in these funds that focus on how money flows into and out of the funds and the year end balances available for spending. These funds are reported on the modified accrual basis of accounting that measures cash and all other financial assets that can be readily converted to cash. The governmental fund statements provide a detailed short-term view of the County's general government operations and the basic services being provided, along with the financial resources available.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities on the government-wide financial statements.

By doing so, readers may better understand the long-term effect of the government's short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains a multitude of individual governmental funds. Information is presented separately on the governmental fund balance sheet and on the governmental fund statement of revenues, expenditures, and changes in fund balances for the major funds, which were identified earlier. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

*Proprietary Funds*—Enterprise funds are used to report the same functions presented as business-type activities on the government-wide financial statements. The County uses enterprise funds to account for the Water and Sewer, Landfill, and Special Tax Lighting District services. Internal Service funds are used to account for the financing of goods or services provided by one department to other departments of the County on a cost-reimbursement basis. The County used internal service funds to account for Equipment Operations, Health Insurance, Workers' Compensation and Fleet Management.

*Fiduciary Funds*—Fiduciary funds are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are not reflected on the government-wide financial statements because the resources from those funds are not available to support the County's programs. The accounting method used for fiduciary funds is much like that used for the proprietary funds.

*Notes to the Financial Statements*—The notes provide additional information that is essential to a full understanding of the data provided on the government-wide and fund financial statements.

*Other Information*—In addition to the basic financial statements and accompanying notes, this report also presents combining and individual fund statements and schedules.

As noted earlier, the County's net position, when reviewed over time, may serve as a useful indicator of the County's financial position. In the case of the County, assets and deferred outflows exceeded liabilities and deferred inflows by \$133,787,156. Net position was \$99,732,687 in governmental activities and \$34,054,469 in business-type activities as of June 30, 2015. The largest portion of the County's net position (94.40%) reflects its investment in capital assets e.g., land and improvements, buildings and building improvements, improvements other than buildings, machinery and equipment, vehicles, and infrastructure) less any related debt used to acquire those assets that is still outstanding. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities. Another 10.65% of net position is restricted for use on capital projects.

**Government Activities**

The largest portion of the County’s program revenue is from charges for services which accounted for \$8,755,855 or 74% of total program revenues. These charges include licenses and permits, fines and forfeitures related to judicial activity, fees for real estate transfers, fees associated with the collection of property taxes and fees charged through various County governmental departments.

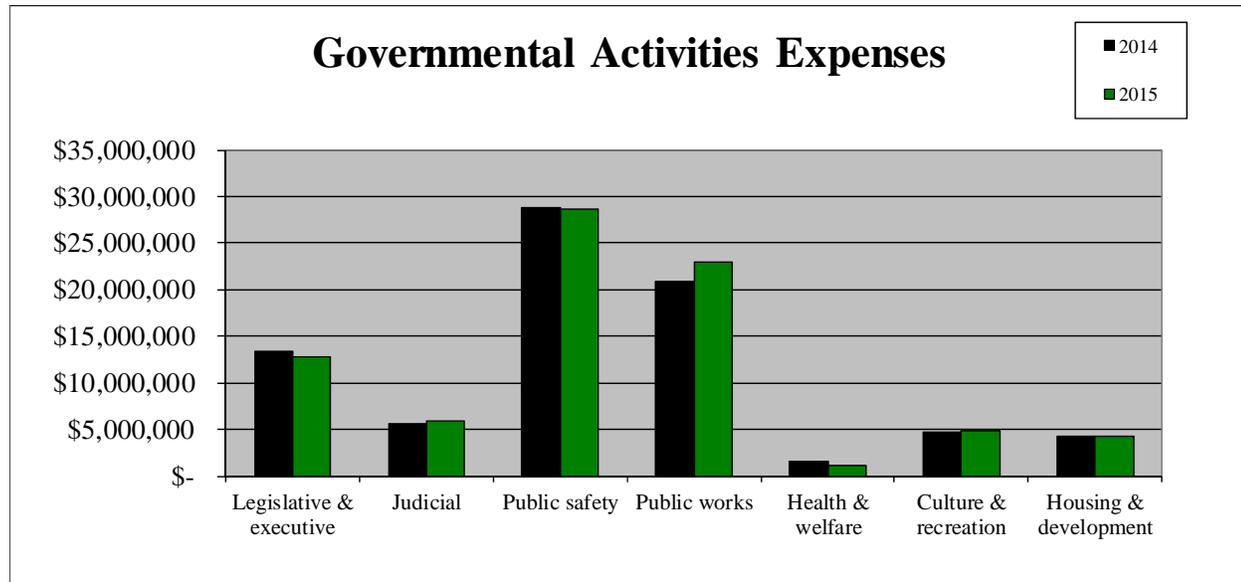

Sales tax revenues are the major contributor to general revenues and account for \$33,352,945 or 47% of total general revenues. Another major component was property taxes, which accounted for \$32,605,491 or 46% of total general revenues.

Property taxes showed modest growth. Sales taxes were down due in part to changes in items being taxed and the local economy still not showing consistent growth.

**Government Activities – Continued**

The following chart compares governmental activities expenses for the year ending June 30, 2014 and 2015. Expenses went up due to inflation and rises in health care cost.

The following table provides the total cost of services and the net cost of services for the governmental activities. The statement of activities reflects the cost of program services and the charges for services, and sales, grants, and contributions offsetting these services. The net cost of services identifies the cost of those services supported by tax revenues and unrestricted intergovernmental revenues.

For the Year Ended June 30, 2015

**Business-Type Activities**

The net position for business-type activities increased \$1,116,484 during the year ending June 30, 2015. The major source of revenue was from charges for services for water and sewer services which amounted to \$4,787,662.

**Financial Analysis of County Funds**

The County uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

**Governmental Funds**

The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the County's net resources available for spending at the end of the year.

As of June 30, 2015, the County's governmental funds reported a combined ending fund balance of \$30,636,231 an increase of \$4,736,940. The County had \$3,130,470 of unassigned fund balance which is available for spending at the County's discretion. The remainder of the fund balance is reserved to indicate that it is not available for new spending because it has already been committed to a variety of other restricted or assigned purposes has a balance of \$27,505,761.

**Major Funds:**

The General Fund is the primary operating fund of the County. At the end of June 30, 2015, the unassigned fund balance was \$3,130,470 while total fund balance was \$15,337,795. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 6.13% to total General Fund expenditures, while the total fund balance represents 38.77% of that same amount.

The Capital Projects SPLOST VII Fund which began on January 1, 2014 expended \$15,036,110 in appropriations to other governments, capital improvements, and public works and received \$21,108,257 in sales tax and investment income. The revenue exceeded expenditures by \$6,072,147 resulting in an ending fund balance of \$8,730,415.

Required Supplemental Information  
For the Year Ended June 30, 2015

**Enterprise Funds**

The County's enterprise funds provide the same type of information found in the government-wide financial statements, but in more detail.

Total Net Position of the Water & Sewer Fund at June 30, 2015, was \$33,545,142. Total Net Position increased by \$877,252.

The Landfill Fund oversees the post-closure expenses of a closed landfill. Solid waste host fees provide revenue to cover these expenses which have been accrued to cover the anticipated cost of monitoring the landfill in accordance with environmental regulations.

The Special Tax Lighting District oversees special districts that are assessed taxes to cover the cost of providing lighting to the district.

**Budgetary Highlights**

By State statute, the Board of County Commissioners adopts the annual operating budget for the County on or before the first day of the fiscal year.

For the General Fund and other governmental funds, changes from the original to the final budget created a net decline in fund balance. A very large increase in health claims resulted in much higher health care cost than was anticipated in the original budget. In an effort to cover this rise in cost with a balanced budget required budgeting funds from the fund balance. The County still maintained its fund balance reserves in accordance with the financial policies and has raised the millage rate in the next year to help avoid any continued use of fund balance.

**Capital Assets**

The County's capital assets for governmental and business-type activities as of June 30, 2015, were \$142,418,521 (net of accumulated depreciation). This investment in capital assets includes land and improvements, buildings and improvements, improvements other than buildings, machinery and equipment, vehicles, and infrastructure.

Major capital asset events during FY15 included continued improvements to roads and public safety equipment.

Note 8 (Capital Assets) provides additional information about capital asset activity during FY15.

For the Year Ended June 30, 2015

**Debt**

The County backed revenue bonds issued for the Valdosta-Lowndes Development Authority during FY09 to provide funding for economic development projects. The bonds are being paid from the 1 mil of property taxes access for the Authority.

Standards & Poor's Corporation has assigned an underlying rating of AA- to these new bonds. However, an AAA credit rating was listed on the bonds since insurance was purchased from Financial Security Assurance, Inc. guaranteeing bond payments.

The County provided backing for bonds issued by the Hospital Authority of Valdosta and Lowndes County, Georgia during FY12 in the amount of \$148,280,000. Additional information can be found in Note 23 for contingent liabilities.

In addition to the bonded debt, the County's long-term obligations include compensated absences and closure/postclosure liability. Additional information on the County's long-term debt can be found in Notes 14 to 18 of this report.

**Economic Factors**

Property tax revenue grew by .06% over the prior year and has averaged 2.82 % growth over the last ten years. This has allowed the County to maintain current millage rates and stay ahead of rising cost through FY16.

The local option sales tax revenues increased 2.14%.

The County maintained a calendar year annual average of 7.3% for unemployment compared to the state average of 7.2%.

**Requests for Information**

This financial report is designed to provide a general overview of the County's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Lowndes County Finance Director, 300 North Patterson Street, Valdosta, GA 31601.

LOWNDES COUNTY, GEORGIA  
 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN  
 FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES  
 For The Year Ended June 30, 2015

Net Change in Fund Balances - Total Governmental Funds \$ 4,736,940

**Amounts reported for governmental activities on the  
 statement of activities are different because of the following:**

Net Pension Obligation  
 Change in pension liability resulting from contributions more than the annual required  
 contribution 106,301

Internal service funds change in net position:  
 Internal service funds change in net position less depreciation  
 and compensated absences 856,138  
 Depreciation (218,302)  
 Compensated absences 793  
638,629

Governmental funds report capital outlays as expenditures. However, on the statement  
 of activities, the cost of those assets is allocated over their estimated useful lives as  
 depreciation expense. This is the amount by which capital outlays exceeded  
 depreciation in the current year:  
 Capital outlay - depreciable capital assets 338,108  
 Capital outlay - nondepreciable capital assets 2,927,601  
 Depreciation (5,823,486)  
(2,557,777)

Revenues on the statement of activities that do not provide current financial resources are  
 not reported as revenues in governmental funds:  
 Property taxes 33,930  
 Assessments (947)  
32,983

Some expenses reported on the statement of activities do not require the use of  
 current financial resources and, therefore, are not reported as expenditures in  
 governmental funds:  
 Other post employment benefits (1,083,851)  
 Loss on disposal of capital asset (23,310)  
 Compensated absences (36,220)  
(1,143,381)

Accrual of interest on bonds payable is not an expenditures in the governmental funds, but  
 is accrued on the statement of activities.  
 Accrued interest expense 1,331  
1,331

Repayment of principal is an expenditure in the governmental funds, but the repayment  
 reduces long-term liabilities on the statement of activities.  
 Amortization of deferred charge on bond refunding (78,327)  
 Amortization of bond premium 93,461  
 Amortization of deferred outflows of resources - pension (65,487)  
 Capital lease payments 840,000  
789,647

LOWNDES COUNTY, GEORGIA  
NOTES TO THE FINANCIAL STATEMENTS

**Note 1 – Summary of Significant Accounting Policies**

The financial statements of Lowndes County have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

**A. The Reporting Entity**

These financial statements present Lowndes County, Georgia (the primary government) which is governed by an elected six - member board, and discretely presented component units. The component units discussed below are included in the County's reporting entity because of the significance of their operational and financial relationships with the County. In conformity with GAAP, as set forth in the Statement of Governmental Accounting Standards No. 14, *The Financial Reporting Entity* and amended by GASB Statement No. 61, the component units' financial statements have been included as discretely presented component units. Each discretely presented component unit, on the other hand, is reported separately in the government-wide financial statements from the most recently audited financial statements. The following is a brief review of each component unit addressed in defining the government's reporting entity.

**Lowndes County Board of Health**

The Lowndes County Board of Health is a component unit based on the criteria in GASB Statement No. 14. The Board of health consists of seven members. Two members are appointed by the City of Valdosta. The Lowndes County Board of Commissioners appoints three members and the Chairman of the Board of Commissioners (or their designee) serves as a member. The County Superintendent of Schools is the other member. County appointments or members make up the majority of the Board of Health. The County provides funding annually to the Board of Health. Because the County appoints the majority of the board and because of the financial relationship between the Board of Health and the County, the Board of Health is reported as a discretely presented component unit. A complete set of financial statements for the Lowndes County Board of Health is presented in a separate report and can be obtained from the Lowndes County Board of Health.

**Valdosta-Lowndes Development Authority**

The Valdosta-Lowndes Development Authority is a component unit based on a significant financial relationship. The County issued general obligation bonds in the County's name for the Authority, so they could acquire land and develop it for industry. The County currently provides the funding for the Authority through a dedicated millage of 1 mil that must first pay for all the general obligation debt and then the balance funds the operations of the Authority. The continuation of the accessed millage is determined by the County. The County appoints two of five of the Board members and rotates an appointment with the City of Valdosta of one Board member at the end of their term of office. The City of Valdosta appoints the other two Board members.

A complete set of financial statements for the Valdosta-Lowndes Development Authority is presented in a separate report and can be obtained from the Valdosta-Lowndes Development Authority.

**Valdosta-Lowndes County Parks and Recreation Authority**

The Valdosta-Lowndes County Parks and Recreation Authority is a component unit based on the criteria of fiscal dependence. The County is providing funding for the Authority through a dedicated millage of 1.25 mils that provides the revenues along with fees to cover the cost of operations of the Authority. The continuation of the accessed millage is determined by the County. The County appoints three of seven Board members and rotates an appointment with the City of Valdosta of one Board member at the end of their term of office. The City of Valdosta appoints the other three Board members.

A complete set of financial statements for the Valdosta-Lowndes County Parks and Recreation Authority is presented in a separate report and can be obtained from the Valdosta-Lowndes County Parks and Recreation Authority.

**Joint Ventures**

The Valdosta-Lowndes County Airport Authority is a joint venture between the City of Valdosta and Lowndes County based on an annual request for funding to both governments. A separate financial report may be obtained from the Valdosta-Lowndes County Airport Authority.

The Valdosta-Lowndes County Conference Center and Tourism Authority is a joint venture between the City of Valdosta and Lowndes County based funding provided each year from both governments. A separate financial report may be obtained from the Valdosta-Lowndes County Airport Authority.

The Southern Georgia Regional Commission is a joint venture of the members in the South Georgia 10 county area. Further information is provided in Note 21.

**B. Basis of Presentation**

The County's basic financial statements consist of government-wide financial statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

**Government-Wide Financial Statements**

The statement of net position and the statement of activities display information about the County as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. For the most part, the effect of inter-fund activity has been removed from these statements. Interfund services provided and used are not eliminated in the process of consolidation. The statements distinguish between those activities of the County that are governmental in nature and those that are considered business-type activities.

The statement of net position presents the financial condition of the governmental and business-type activities of the County at year end. The statement of activities presents a comparison between direct expenses and

**Note 1 - Summary of Significant Accounting Policies – Continued**

**B. Basis of Presentation - Continued**

program revenues for each program or function of the County’s governmental activities and business-type activities. Direct expenses are those that are specifically associated with a service, program, or department and, therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest earned on grants that is required to be used to support a particular program. Revenues that are not classified as program revenues are presented as general revenues of the County, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental program or business activity is self-financing or draws from the general revenues of the County.

**Fund Financial Statements**

During the year, the County segregates transactions related to certain County functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the County at a more detailed level. The focus of governmental and proprietary fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

**C. Fund Accounting**

The County uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary, and fiduciary.

**Governmental Funds**

Governmental funds are those through which most governmental functions of the County are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the County’s major governmental funds:

**General Fund.** The General Fund accounts for all financial resources, except those required to be accounted for in another fund. All general operating revenues which are not restricted or designated as to use by outside sources are recorded in the General Fund.

**Capital Projects Special Sales Tax VII Fund.** The Capital Projects Special Sales Tax VII Fund accounts for the special purpose local option sales tax that was renewed for the seventh time by referendum. The revenue is restricted to the stated purposes of the referendum.

**Note 1 - Summary of Significant Accounting Policies - Continued**

**C. Fund Accounting - Continued**

The other governmental funds of the County account for grants and other resources whose use is restricted for a particular purpose; the accumulation of resources for, and the payment of debt; and the acquisition or construction of major capital facilities.

**Proprietary Funds**

Proprietary Fund reporting focuses on the determination of operating income, changes in net position, financial position, and cash flows. Proprietary funds distinguish operating revenue and expenses from nonoperating items. Operating revenue and expenses generally result from providing services and producing and delivering goods in connection with the proprietary fund's principle ongoing operations. All other revenues and expenses not meeting this definition are considered nonoperating. The County's enterprise funds may be used to account for any activity for which a fee is charged to external users of goods or services. The following is the County's major enterprise fund:

**Water and Sewer Fund.** The fund accounts for fees collected by the County for water and sewer services.

**Internal Service Funds**

Internal Service Funds are used to account for the financing of goods or services provided by one department to the other departments of the County on a cost-reimbursement basis. The County has four internal service funds:

**Equipment Operations** - to account for charges to other funds for the maintenance and repair of County equipment.

**Health Insurance** – to account for charges to other funds and contributions from employees and for the payment of health insurance premiums and benefits.

**Fleet Manager** – to account for charges to other funds for the use of vehicles and equipment purchased through the fleet manager fund.

**Workers' Compensation** – to account for charges to other funds for the payment of workers' compensation premiums and benefits.

**Fiduciary Funds**

Fiduciary fund reporting focuses on net position and changes in net position. The County's agency funds account for assets held by the County's Tax Commissioner, Clerk of Court, Sheriff, Magistrate Court, Probate Court and Development Authority for other governments or individuals.

LOWNDES COUNTY, GEORGIA  
NOTES TO THE FINANCIAL STATEMENTS

**Note 1 - Summary of Significant Accounting Policies - Continued**

**D. Measurement Focus**

**Government-Wide Financial Statements**

The government-wide financial statements are prepared using a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of the County are included on the statement of net position. Government-wide financial statements for the Valdosta-Lowndes County Development Authority, the Valdosta-Lowndes Parks and Recreation Authority and the Lowndes County Board of Health are also presented.

**Fund Financial Statements**

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balance reflects the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the fund financial statements for governmental funds.

Like the government-wide financial statements, the enterprise and internal service funds are accounted for using a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of net position. The statement of changes in revenues, expenses, and changes in net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The statement of cash flows reflects how the County finances and meets the cash flow needs of its enterprise and internal service activities.

**E. Basis of Accounting**

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide and enterprise and internal service fund financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting; enterprise funds and fiduciary funds use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

**Revenue—Exchange and Nonexchange Transactions**

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recognized in the year in which the resources are measurable and become available. Available means the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For the County, available means expected to be received within sixty days after year end.

LOWNDES COUNTY, GEORGIA  
NOTES TO THE FINANCIAL STATEMENTS

**Note 1 – Summary of Significant Accounting Policies – Continued**

**E. Basis of Accounting -Continued**

**Revenues—Exchange and Nonexchange Transactions - Continued**

Nonexchange transactions, in which the County receives value without directly giving equal value in return, include property taxes, sales taxes, grants, entitlements, and donations. On the accrual basis, revenue from property taxes are recognized in the year for which the taxes are levied. Revenue from sales taxes is recognized in the period in which the sales are made. Revenue from grants, entitlements, and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted; matching requirements, in which the County must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the County on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered both measurable and available at year end: sales taxes, charges for services, fines and forfeitures, grants, interest, and rent.

**Deferred Outflows/Inflows of Resources**

Deferred outflows of resources represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County has two items that qualifies for reporting in this category. One if the deferred charge on refunding of bonds reported in the enterprise funds and government-wide statements of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is no longer reported net of debt and is deferred and amortized over the shorter of the life of the refunded or refunding debt. The other deferred charge related to pensions.

Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has unavailable revenue, which arises only under the modified accrual basis of accounting that qualifies for reporting in this category on the governmental funds balance sheet.

The Count also has deferred inflows and outflows related to the recording of changes in its net pension liability. Certain changes in the net pension liability are recognized as pension expense over time instead of all being recognized in the year of occurrence. Experience gains and losses result from periodic studies by the County’s actuaries witch adjust the net pension liability for actual experiences for certain trend information that was previously assumed. These experience gains or losses are recorded as deferred outflows of resources or deferred inflows of resources and are amortized into pension expense over the expected remaining service lives of plan members. The difference between projected investment return on pension investments and actual return on those investments is also deferred and amortized against pension expense over a five year period.

**Note 1 - Summary of Significant Accounting Policies - Continued**

**E. Basis of Accounting - Continued**

**Expenses/Expenditures**

On the accrual basis, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

**F. Budgetary Process**

An annual budget is adopted (as required by law) by the County for the general, special revenue and capital projects funds. Although not legally required, the County also adopts a budget for the enterprise funds and internal service funds. The budgets are adopted on a basis substantially consistent with U.S. generally accepted accounting principles.

The County uses the following procedures in establishing the annual budgets:

1. Prior to July 1, the County Manager submits to the Board of Commissioners a proposed budget for the fiscal year commencing on that date. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted to obtain taxpayer comments. Notice is given at least ten days in advance by publication in the official organ of Lowndes County.
3. The budget is legally enacted through passage of an ordinance.
4. The County has a policy of budgeting on a departmental basis.
5. Formal budgetary integration is employed as a management control device during the year for the general fund, special revenue, capital project, internal service and enterprise funds.
6. Budgeted amounts are shown as amended throughout the year.

There were no excess of expenditures over appropriations in individual funds.

**G. Encumbrances**

Encumbrance accounting, under which major purchase orders, contracts, and other commitments for the expenditures of monies are recorded to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration.

Encumbrances outstanding at year-end represent the estimated amount of the expenditures ultimately to result if unperformed contracts in process at year-end are completed. Encumbrances outstanding at year-end do not constitute expenditures or liabilities. For budgetary purposes the encumbrances were recognized as expenditures and this is accounted for as an adjustment from the GAAP Basis to the Budgetary Basis.

There were no encumbrances for the year ending June 30, 2015.

LOWNDES COUNTY, GEORGIA  
NOTES TO THE FINANCIAL STATEMENTS

**Note 1 - Summary of Significant Accounting Policies - Continued**

**H. Cash and Investments**

To improve cash management, cash received by the County is pooled and invested. Individual fund integrity is maintained through County records. Each fund's interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents."

Cash and cash equivalents that are held separately within departments of the County, and not included in the County Treasury, are recorded as "Cash and Cash Equivalents in Segregated Accounts."

Cash and cash equivalents of the Lowndes County Board of Health and the Valdosta-Lowndes Development Authority component units are recorded as "Cash and Cash Equivalents in Segregated Accounts."

Investments are reported at fair value, except for repurchase agreements and non-negotiable certificates of deposit which are reported at cost. Fair value is based on quoted market prices.

Income from pooled investments is allocated only when contractually or legally required. All investment earnings not legally or contractually required to be credited to individual accounts or funds are credited to the General Fund.

For purposes of the combined statement of cash flows and for presentation on the statement of net position, investments of the cash management pool and investments with a maturity of three months or less at the time they are purchased by the County are considered to be cash and cash equivalents. Investments with a maturity of more than one year, and not purchased from the cash management pool, are reported as investments.

**I. Prepaid Items**

Prepaid items are for payments made by the County in the current year to provide services occurring in the subsequent fiscal year.

**J. Inventory**

Inventory is presented at the lower of cost or market on a first-in, first-out basis and is expensed when used. Inventory consists of expendable supplies held for consumption.

**K. Restricted Assets**

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Certain resources set aside for the payment of bond debt and customer deposits for the water and sewer fund are classified as restricted assets on the balance sheet because their use is limited.

**L. Capital Assets**

General capital assets are capital assets which are associated with and generally arise from governmental activities. They generally result from expenditures in governmental funds. General capital assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets used by the enterprise funds are reported in both the business-type activities column of the government-wide statement of net position and in the respective funds.

LOWNDES COUNTY, GEORGIA  
NOTES TO THE FINANCIAL STATEMENTS

**Note 1 - Summary of Significant Accounting Policies - Continued**

**L. Capital Assets - Continued**

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and reductions during the year. Donated capital assets are recorded at their fair market value on the date donated. The County maintains a capitalization threshold of \$7,500. The County’s infrastructure consists of roads, bridges, and culverts for which the County chose to include all such items regardless of their acquisition date. The County was able to estimate the historical cost of the governmental activities infrastructure for the initial reporting of those assets. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset’s life are not capitalized. Interest incurred during the construction of enterprise fund capital assets is also capitalized.

All capital assets are depreciated, except for land and improvements and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the County’s historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives.

<u>Description</u>	<u>Estimated Lives</u>
Buildings and Building Improvements	40–100 years
Improvements Other Than Buildings	40 years
Machinery and Equipment	5–20 years
Vehicles	6–20 years
Infrastructure	5–50 years
Water System	5–50 years
Sewer System	5–50 years

**M. Interfund Receivables/Payables**

On fund financial statements, receivables and payables resulting from short-term interfund loans or interfund services provided and used are classified as “Interfund Receivables/Payables.” Interfund balances within governmental activities and within business-type activities are eliminated on the government-wide statement of net position. The only interfund balances which remain on the government-wide statement of net position are those between governmental and business-type activities. These amounts are reflected as “Internal Balances.”

**N. Compensated Absences**

Leave benefits are accrued as a liability as the benefits are earned if the employees’ rights to receive compensation are attributable to services already rendered and it is probable the County will compensate the employees for the benefits through paid time off or some other means. The County records a liability for accumulated unused leave time when earned for all employees.

The entire compensated absences liability is reported on the government-wide financial statements.

On governmental fund financial statements, compensated absences are not recognized as a liability and expenditure. For enterprise funds, the entire amount of compensated absences is reported as a fund liability.

**Note 1 - Summary of Significant Accounting Policies - Continued**

**O. Accrued Liabilities and Long-Term Obligations**

All payables, accrued liabilities, and long-term obligations are reported on the government-wide financial statements. All payables, accrued liabilities, and long-term obligations payable from the enterprise funds are reported on the enterprise fund financial statements.

In general, governmental fund payables and accrued liabilities are recognized as fund liabilities when incurred. However, required pension contributions that are paid from governmental funds are reported as liabilities on the fund financial statements only to the extent that they are due for payment during the current year. Loans and capital leases are recognized as a liability on the fund financial statements when due.

**P. Fund Equity**

Fund equity at the governmental fund financial reporting level is classified as fund balance. Fund equity for all other reporting is classified as net position.

**Fund Balance**

Generally, fund balance represents the difference between the assets and liabilities under the current financial resources measurement focus of accounting. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the County is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

**Nonspendable:** Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.

**Restricted:** Fund balances are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

**Committed:** Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the County Board of Commissioners through the adoption of a resolution. Only the Board of Commissioners may modify or rescind the commitment.

**Assigned:** Fund balances are reported as assigned when amounts are constrained by the County's intent to be used for specific purposes, but are neither restricted nor committed. Through resolution, the Board of Commissioners has authorized the County's Finance Director to assign fund balances.

**Unassigned:** Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criterion. Positive unassigned fund balance may be reported only in the General Fund. Negative unassigned fund balances may be reported in all funds.

LOWNDES COUNTY, GEORGIA  
NOTES TO THE FINANCIAL STATEMENTS

**Note 1 - Summary of Significant Accounting Policies - Continued**

**P. Fund Equity (Continued)**

The County has adopted a financial policy of maintaining a minimum balance in the total fund balance of the General Fund equal to 120 days of expenditures based on the annual daily average.

**Flow Assumptions**

When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the County's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the County's policy to use fund balance in the following order: Committed, Assigned, Unassigned.

**Net Position**

Net position represents the difference between assets and liabilities in reporting which utilizes the economic resources measurement focus. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the County has spent) for the acquisition, construction or improvement of those assets. Net position is reported as restricted using the same definition as used for restricted fund balance as described in the section above. All other net position is reported as unrestricted.

The County applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

**Q. Operating Revenues and Expenses**

Operating revenues are those revenues that are generated directly from the primary activity of the enterprise funds. For the County, these revenues are charges for services for water and sewer and street lighting. Operating expenses are the necessary costs incurred to provide the service that is the primary activity of the fund. Revenues and expenses not meeting these definitions are reported as nonoperating.

**R. Interfund Transactions**

Transfers between governmental and business-type activities on the government-wide financial statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as Interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in enterprise funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

LOWNDES COUNTY, GEORGIA  
NOTES TO THE FINANCIAL STATEMENTS

**Note 1 - Summary of Significant Accounting Policies - Continued**

**S. Management Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**T. Adoption of Accounting Pronouncement**

The County adopted GASB Statement No. 68 *Accounting and Financial Reporting of Pensions – an amendment to GASB Statement No. 27*, as well as Statement No. 71, *Pension Transition for Contributions made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68*. The objective of this statement is to improve decision-usefulness of information in employer entity financial reports and will enhance its value for assessing accountability and inter-period equity by requiring the recognition of the entire net pension liability and a more comprehensive measure of pension expense. Decision-usefulness and accountability will also be enhanced through new note disclosures and required supplementary information.

**Note 2 – Deposits and Investments**

**Interest Rate Risk.** The County has a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

**Credit Risk.** State statutes authorize the County to invest in obligations of the State of Georgia or other states; obligations issued by the U.S. government; obligations fully insured or guaranteed by the U. S. government or by a government agency of the United States; obligations of any corporation of the U. S. government; prime banker’s acceptances; the local government investment pool established by state law; repurchase agreements; and obligations of other political subdivisions of the State of Georgia. The County has no policy for credit risk beyond the types of investments authorized by state statute.

**Custodial Credit Risk – Deposits.** Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the County will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require all deposits and investments (other than federal or state government instruments) to be collateralized by depository insurance, obligations of the U. S. government, or bonds of public authorities, counties or municipalities. The County has no custodial credit risk policies requiring additional collateral.

**Custodial Credit Risk – Investments.** Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. State statutes require all investments (other than federal or state government instruments) to be collateralized by depository insurance, obligations of the U. S. government, or bonds of public authorities, counties or municipalities. The County has no custodial credit risk policies requiring additional collateral.

LOWNDES COUNTY, GEORGIA  
NOTES TO THE FINANCIAL STATEMENTS

**Note 3 – Property Taxes**

Property taxes include amounts levied against all real property, public utility property, and tangible personal property located in the County. The property taxes for Lowndes County are collected by the Lowndes County Tax Commissioners Office and remitted to the County monthly.

The property tax calendar is as follows:

- January 1 - Assessment date
- July 1 - Tax Assessors send returns to Tax Commissioner
- July 25 - Millage rate is set by the County Commission
- July 28 - County tax digest is submitted to the State Revenue Commissioner
- September 15 - Bills are mailed by Tax Commissioner
- November 15 - Due date for property taxes other than motor vehicles
- November 16 - Execution date for unpaid taxes

Taxes are collected throughout the year.

**Note 4 – Payment in Lieu of Taxes**

According to State law, the County has entered into agreements with a number of property owners under which the County has granted property tax abatements to those property owners and agreed to construct certain infrastructure improvements. The property owners have agreed to make payments to the County to help pay the costs of the infrastructure improvements. The amount of those payments generally reflects all or a portion of the property taxes which the property owners would have paid if their taxes had not been abated. The property owners' contractual promises to make these payments in lieu of taxes generally continue until the costs of the improvement have been paid or the agreement expires, whichever occurs first. Future development by those owners or others may result in subsequent agreements to make payments in lieu of taxes and may therefore spread the costs of the improvements to a larger number of property owners.

**Note 5 – Hotel/Motel Lodging Tax**

Lowndes County levies a 5% hotel motel lodging tax of which 2% is designated for the promotion of tourism. All of the tourism funds are provided to the Valdosta-Lowndes County Conference Center & Tourism Authority which amounted to \$125,084. Lowndes County receives an audit report from the Valdosta- Lowndes County Conference Center & Tourism Authority demonstrating that all expenditures of these funds were for promotion of tourism as required by O.C.G.A. 48-13-51. Collections of hotel motel lodging tax amounted to \$312,292. The balance of funds was used by the County to assist with appropriations to the Valdosta-Lowndes County Airport Authority bringing the total expenditures to 100% of revenues.

**Note 6 – Receivables**

Receivables at June 30, 2015, consisted of accounts (billings for user charged services, including unbilled utility services), sales taxes, accrued interest, grants, interfund, and property taxes. All amounts due from other governments are considered collectible in full. Delinquent property taxes may be certified and collected as a special assessment, subject to foreclosure for nonpayment.

Receivables are recognized to the extent the amounts are determined material and substantiated, not only by supporting documentation but also by a reasonable systematic method of determining their existence, completeness, valuation, and collectability.

<u>Due To</u>			
General Fund	\$ 258,133	\$ 93,622	\$ 351,755
	<u>\$ 258,133</u>	<u>\$ 93,622</u>	<u>\$ 351,755</u>

Interfund transfers for the year ending June 30, 2015 consisted of the following:

	Transfer From					Total
	General Fund	SPLOST VII Fund	Nonmajor Governmental Funds	Water and Sewer Fund	Landfill Fund	
<u>Transfer To</u>						
General Fund	\$ -	\$ -	\$ 435,000	\$ 377,000	\$ 104,000	\$ 916,000

The difference in interfund receivables and payables for government funds is due to amounts due to and from internal service funds shown above. The interfund balances resulted from loans made to provide working capital for operations and projects and the time lag between dates that payments between funds are made.

Transfers were made from the nonmajor governmental funds and enterprise funds to the general fund for administrative cost. Transfers to 911 Fund, a nonmajor governmental fund were to cover operational cost of that fund. Transfers to the Hotel Motel Fund, a nonmajor governmental fund, from the Special Services Fund were to cover the appropriation to the Valdosta-Lowndes County Airport Authority. Transfers from the SPLOST VII Fund to the Water & Sewer Fund were to cover capital projects approved in the SPLOST VII referendum.

**Note 10 – Risk Management**

**A. Property and Liability**

The County is exposed to various risk of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County established a Health Insurance Fund and a Workers Compensation Fund (internal service funds) to account for and finance its uninsured risks of loss. Under this program, the Workers Compensation Fund provides coverage for up to a maximum of \$250,000 for each worker’s compensation claim, \$2,500 for each enforcement claim. The coverage has a \$1,000,000 cap. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

LOWNDES COUNTY, GEORGIA  
 NOTES TO THE FINANCIAL STATEMENTS

**Note 10 – Risk Management - Continued**

**A. Property and Liability - Continued**

All funds of the County participate in the Health Insurance and Workers Compensation programs and make payments to the funds based on estimates of the amounts needed to pay prior and current-year claims and to establish a reserve for catastrophe losses. The Health Insurance Fund has a net position of \$1,835 and the Workers Compensation Fund has a net position balance of \$199,761 as of June 30, 2015. At June 30, 2015 the Health Insurance Fund has a claims liability of \$1,270,975 and the Workers Compensation Fund has a claims liability of \$730,000 reported based on the requirements of Governmental Accounting Standards Board Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated.

Changes in the Health Insurance and Workers Compensation Funds claim liability amounts in fiscal 2014 and 2015 were:

<b>Fiscal Year 2014</b>	Beginning	Claims Estimates	Claims Paid	Ending
	Group Health Fund	\$ 622,070	\$ 5,834,079	6,118,077
Workers' Compensation Fund	557,000	312,873	359,873	510,000
	<u>\$ 1,179,070</u>	<u>\$ 6,146,952</u>	<u>\$ 6,477,950</u>	<u>\$ 848,072</u>

<b>Fiscal Year 2015</b>	Beginning	Claims Estimates	Claims Paid	Ending
	Group Health Fund	\$ 338,072	\$ 4,524,995	3,592,092
Workers' Compensation Fund	510,000	553,050	333,050	730,000
	<u>\$ 848,072</u>	<u>\$ 5,078,045</u>	<u>\$ 3,925,142</u>	<u>\$ 2,000,975</u>

**1) Health Care**

The County manages the employee health coverage uninsured except for a stop-loss policy. Included in the accounts payable of the Health Insurance Fund is an estimated liability of \$1,270,975 which reflects health claims incurred, but not processed prior to yearend. This health claims liability was estimated based on such claims paid subsequent to year end.

**2) Workers' Compensation**

The County participates in the ACCG- Group Self-Insurance Workers' Compensation Fund to pay all cost taxed against members in any legal proceeding defended by the members, all interest accruing after entry of judgment, and all expense incurred for investigation, negotiation, or defense.

Included in the accounts payable of the Workers Compensation Fund is an estimated liability of \$730,000 which reflects workers compensation claims incurred but not processed prior to year-end. This workers compensation liability was estimated in the annual actuarial report.

Settled claims in the past three years have not exceeded the coverage. There was no significant reduction in insurance coverage from the prior year.

**Summary of Significant Accounting Policies**

The Plan’s financial statements are prepared on an accrual basis, modified to include unrealized gains or losses on marketable securities owned by the Plan.

Plan member contributions are recognized in the period in which contributions are due. County contributions are recognized when due and the County has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable.

Investments in securities are valued at current market prices. The trust fund is invested, approximately, in 70% equities and 30% fixed income securities on a cost basis.

**Contributions**

The County is required to contribute at an actuarially determined rate. Section 47-20 of the Georgia Code set forth the minimum funding standards for state and local governmental pension plans. Administrative expenses are based on total covered compensation of active plan participants and are added to the state-required annual fund requirement.

The Georgia Constitution enables the governing authority of the County, the Board of Commissioners, to establish, and amend from time-to-time the contribution rates for the County and its plan participants.

**Board of Trustees**

The Trustees for the Association County Commissioners of Georgia (ACCG) Pension Plan and Trust oversees the administration, investment and funding of the Association County Commissioners of Georgia Retirement Program for member employers.

The County contributes to the Association County Commissioners of Georgia (“ACCG”) Defined Benefit Plan, an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for participating counties in Georgia.

**Benefits**

The specific benefit provisions of the County’s plan were established by an adoption agreement executed by the County Board of Commissioners. The Plan provides for benefits upon retirement, death, disablement, and termination of employment, if certain eligibility conditions are met.

Participant counts of those eligible for benefits as of January 1, 2014, (the most recent actuarial valuation date) and covered compensation (based on coverage earnings for the preceding year) are shown below:

Retirees, beneficiaries and disables receiving benefits	167
Terminated plan members entitled to but not yet receiving benefits	266
Active plan members	484
Total number of plan participants	<u>917</u>

Covered compensation for active participants \$ 16,753,523

**Contributions**

The annual County contribution to the Plan is determined using the actuarial basis described in the annual valuation report. The annual County contribution meets or exceeds the minimum funding requirements of Georgia Statute 47-20. The County contributions for the calendar year ending December 31, 2014 were \$2,635,766.

**Net Pension Liability**

The County’s net pension liability was measured as of December 31, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2015. The amount recognized as by the County as the net pension liability was as follows:

Net Pension Liability      \$14,663,809

*Actuarial assumptions.* The actuarial assumptions used for the January 1, 2015 valuation was applied to all periods included in the measurement were as follows:

Investment return	7.50%
Future salary increases	4.50% per year with an age based scale as follows:
<u>Age</u>	<u>Salary Increase</u>
Under 30	4.5% rate plus 1.5%
30-39	4.5% rate plus 1.0%
40-49	4.5% rate less 0.5%
50+	4.5% rate less 10%
Future payroll growth for level percentage compensation amortization	5.5% per year
Mortality	RP-2000, Combined

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed income	30%	25%-35%
Equities:		
Large Cap	30%	25%-35%
Mid Cap	5%	2.5%-10%
Small Cap	5%	2.5%-10%
REIT	5%	2.5%-10%
International	15%	10%-20%
Multi Cap	5%	2.5%-10%
Global Allocation	5%	2.5%-10%

*Discount rate.* The discount rate used to measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that employee contribution will be made at the current contribution rate and that County contributions will be made at rates equal to the difference between actuarially determined contribution rates and the employee rate. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

2016	\$ 65,487
2017	65,487
2018	65,487
2019	65,487

**Payable to the Pension Plan**

At June 30, 2015, the County reported a payable of \$1,541,310 for the outstanding amount of contributions to the pension plan required for the year ended January 25, 2016.

A copy of additional financial information from the Plan financial reports can be obtained from GEBCorp, 400 Galleria Parkway, Suite 1250, Atlanta, Georgia 30339.

In addition to the above retirement plan, of which the County is administrator, the following retirement plans are in effect but are not under the direct control of the County:

- 1) Judges of the Probate Courts Retirement Fund of Georgia
- 2) Clerk of Superior Court Retirement Fund
- 3) Sheriffs’ Retirement Fund of Georgia
- 4) Peace Officers’ Annuity and Benefit Fund of Georgia
- 5) Georgia Firefighters’ Pension Fund

These plans provide for certain sums from marriage licenses, fees, fines and forfeitures to be remitted directly to the pension plans before the payment of any costs or other claims. GASB Statement #68 valuation reports and schedules can be found on their respective web site.

**General Information about the Employees Retirement System (ERS)**

**Plan description:** ERS is a cost-sharing multiple-employer defined benefit pension plan established by the Georgia General Assembly during the 1949 Legislative Session for the purpose of providing retirement allowances for employees of the State of Georgia and its political subdivisions. ERS is directed by a Board of Trustees. Title 47 of the O.C.G.A. assigns the authority to establish and amend the benefit provisions to the State Legislature. ERS issues a publicly available financial report that can be obtained at [www.ers.ga.gov](http://www.ers.ga.gov).

**Benefits provided:** The ERS Plan supports three benefit tiers: Old Plan, New Plan, and Georgia State Employees' Pension and Savings Plan (GSEPS). Employees under the old plan started membership prior to July 1, 1982 and are subject to plan provisions in effect prior to July 1, 1982. Members hired on or after July 1, 1982 but prior to January 1, 2009 are new plan members subject to modified plan provisions. Effective January 1, 2009, new state employees and rehired state employees who did not retain membership rights under the Old or New Plans are members of GSEPS. ERS members hired prior to January 1, 2009 also have the option to irrevocably change their membership to GSEPS.

Under the old plan, the new plan, and GSEPS, a member may retire and receive normal retirement benefits after completion of 10 years of creditable service and attainment of age 60 or 30 years of creditable service regardless of age. Additionally, there are some provisions allowing for early retirement after 25 years of creditable service for members under age 60.

Retirement benefits paid to members are based upon the monthly average of the member's highest 24 consecutive calendar months, multiplied by the number of years of creditable service, multiplied by the applicable benefit factor. Annually, postretirement cost-of-living adjustments may also be made to members' benefits, provided the members were hired prior to July 1, 2009. The normal retirement pension is payable monthly for life; however, options are available for distribution of the member's monthly pension, at reduced rates, to a designated beneficiary upon the member's death. Death and disability benefits are also available through ERS.

**Contributions:** Employees are required to pay 1.25% of gross earnings to the retirement account and .25% of gross earnings to the Group Term Life Insurance (GTLI) premiums except for employees covered by the new GSEPS plan that was effective January 1, 2009. The GSEPS plan employees contribute 1.25% of their gross pay and are not eligible for the GTLI. GSEPS participants are also eligible to participate in a 401K Plan with employer match contributions based on employee contributions. The Lowndes County Board of Health makes annual contributions to the pension plan equal to the amount required as set by the Board of Trustees of the PERS as determined by the system's actuary. Employer contributions amounted to 13.71%, 18.46% and 15.18% of covered compensation for the fiscal year for participants in the old, new and GSEPS plan respectively for the year ended June 30, 2015. Employer contributions made for the year ended June 30, 2015 totaled \$1,040,217.

**Pension Liabilities and Pension Expense**

At fiscal year end, the Board of Health reported \$7,296,677 as a liability for its proportionate share of the net pension liabilities.

The Board of Health’s net pension liability is measured as the proportionate share of the net pension liability. The net pension liability is measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2013 rolled forward to June 30, 2014 using standard update procedures. The Board of Health’s proportion of the net pension liability was based on a projection of the Board of Health’s long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. The Board of Health’s proportionate share of the net pension liability as of June 30, 2013 and 2014 was as follows:

Proportion – June 30, 2013	.196226%
Proportion – June 30, 2014	.194546%

For the year ended June 30, 2015, the Board of Health recognized pension expense of \$414,247. At June 30, 2015 the Board of Health reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ -
Changes of assumptions	-	-
Net difference between projected and actual earnings on pension plan investments	-	1,780,895

Employer contributions subsequent to the measurement date	1,040,217	-
<b>Total</b>	<b>\$ 1,040,217</b>	<b>\$ 1,831,064</b>

Deferred outflows of resources related to contributions subsequent to the measurement date of \$1,040,207 will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

**Actuarial assumptions:** The total pension liability as of June 30, 2015 was determined by an actuarial valuation as of June 30, 2014 using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.00%
Salary increases	5.45% - 9.25%
Investment rate of return	7.50%, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2000 Combined Mortality Table for the periods after service retirement, for dependent beneficiaries, and for deaths in active service, and the RP-2000 Disabled Mortality Table set back eleven years for males for the period after disability retirement.

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2004 – June 30, 2009.

**Discount rate:** The discount rate used to measure the total pension liability was 7.50%.

Sensitivity of the Employer’s proportionate share of the net pension liability to changes in the discount rate:

	1% Decrease (6.5%)	Current discount rate (7.5%)	1% Increase (8.5%)
Employer's proportionate share of the net pension liability	10,640,003	7,296,677	4,450,728

**Note 12 - Deferred Compensation Plan**

The County offers its employees a deferred compensation plan created in accordance with Internal Revenue Code (IRC) Section 457. The plan, available to all employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

The assets of the plan are held in trust, (custodial account or annuity contract) as described in IRC Section 457(g) for the exclusive benefit of the participants (employees) and their beneficiaries. The custodian thereof for the exclusive benefit of the participants holds the custodial account for the beneficiaries of this Section 457 plan, and the assets may not be diverted to any other use. The Administrators are agents of the employer for the purposes of providing direction to the custodian of the custodial account from time to time for the investment of funds held in the account, transfer of assets to or from the account and all other matters. In accordance with the provisions of GASB Statement 32, plan balances and activities are not reflected in Lowndes County, Georgia’s financial statements.

LOWNDES COUNTY, GEORGIA  
 NOTES TO THE FINANCIAL STATEMENTS

**Note 13– Other Post-Employment Benefits**

**Plan Description**

In addition to providing pension benefits, in accordance with County resolution, the County provides certain health care benefits for retired employees. The County’s employees who are eligible for retirement benefits under the pension plan are also eligible for post-employment health care benefits. Retirees who meet one of the following requirements are eligible to continue coverage through the County’s self-insured health insurance program:

- Age 65
- Must have 10 or more years of service with Lowndes County, and be at least 55 years of age or
- Must have a combination of years of service and attained age equal to 75, with a minimum age of 55.
- Must have 10 or more years of services with Lowndes County and be deemed to be totally disabled by the Federal Social Security Administration.

Retirees may stay on the plan for their lifetime by making the required contribution. Dependents may participate for the lifetime of the retiree as long as the retiree pays the required contribution for dependent coverage.

The monthly retiree contributions are as follows:

Medical Tier	Non-Medicare Eligible Retiree	Medicare Eligible Retiree
Retiree Only	\$ 205.00	\$ 115.00
Family	\$ 315.00	\$ 175.00

Once the covered member becomes eligible for Medicare, the County’s plan pays claim secondary to Medicare.

The plan is governed by the County Board of Commissioners. The County has made no commitments to maintain this program. The benefits of the plan are not vested and may be modified or eliminated at anytime. A separate financial statement is not issued for the plan.

**Funding Policy**

The contribution requirements of plan members and the County are established and may be amended by the Board of Commissioners. The required contribution is based on a projected pay-as-you-go financing requirement as determined by the Board of Commissioners.

**Annual OPEB Cost and Net OPEB Obligation**

The County’s annual Other Postemployment Benefit (OPEB) cost is calculated based on the Annual Required Contribution of the Employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost each year and amortize any unfunded actuarial liabilities (or unfunded excess) over a period not to exceed 30 years.

 NOTES TO THE FINANCIAL STATEMENTS

**Note 13– Other Post-Employment Benefits - Continued**

**Actuarial Methods and Assumptions - Continued**

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members at that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the employer and plan members in the future.

Calculations are based on the plan in effect at January 1, 2013. The assumptions used in the January 1, 2013 actuarial valuation are as follows:

Valuation date	January 1, 2013
Actuarial cost method	Projected unit credit
Amortization method	Level Percentage of Pay, open
Amortization period	30 Years
Asset valuation method	Market Value of Assets
Actuarial assumptions:

Pre-Medicare trend rate	8.50%-5.00%
Year of Ultimate trend rate	2018
*Includes inflation at	3.00%

**Note 14 – Compensated Absences**

It is the County’s policy to permit employees to accumulate earned but unused leave benefits. A maximum of 192 hours of unused leave benefits will be paid to employees upon separation from County service. In the normal course of business, all payments of these accumulated benefits will be funded from appropriations of the year in which they are to be paid from the fund for which the employee’s compensation is funded. While the General Fund covers a majority of the cost of compensated absences, Commissary, Jail Operations, Drug Abuse Treatment, 911 Emergency Telephone, Victim Witness and Special Services funds all contribute to compensated absences for employees paid through those funds.

**Note 15 - Capital Leases**

As of December 1, 2003, the County issued bonds through the Central Valdosta Development Authority for the purchase of the Judicial Complex. During FY13 the bonds held by the Central Valdosta Development Authority were refunded and new bonds were issued through the Lowndes County Public Facility Authority. The county entered into an agreement with the Lowndes County Public Facility for the purchase of the Judicial Complex and payment of the bonds.

Various capital leases were entered into through the ACCG lease program for the acquisition of equipment. The assets acquired through capital leases for governmental activities are as follows:

Equipment	5,778,788
Less: Accumulated Depreciation	<u>(5,372,515)</u>
Total	<u>\$ 406,273</u>

The FY15 amortization expense of \$231,609 was included in the depreciation expense.

**Intergovernmental Agreement**

As of August 1996, the County entered into an intergovernmental funding agreement with the Valdosta-Lowndes Development Authority to secure bonds issued by the Authority for \$ 5,000,000 to finance acquisition and development of industrial sites. The bonds have a floating interest rate based on a percentage of the London Interbank Offer Rate. The bonds were payable “interest only” until January 1, 1999 after which, annual payments of principal are due. The bonds mature January 1, 2017. The balance as of June 30, 2015 is \$ 870,000.

As of December 2008, the County entered into an intergovernmental funding agreement with the Valdosta-Lowndes Development Authority to secure bonds issued by the Authority for \$ 15,000,000 to finance acquisition and development of industrial sites. The bonds have a variable fixed interest rate. The bonds mature February 1, 2024. The balance as of June 30, 2015 is \$ 10,760,000.

State and federal laws and regulations require the County to cover a landfill and maintain monitoring functions for thirty years after closure. The County has accrued the expected postclosure cost for the landfill that closed November 1996. The amount accrued of \$814,554 represents 100% of the total estimated remaining postclosure cost which is made up of estimated monitoring costs and maintenance costs. This estimate is subject to change based on changes in technology or applicable laws and regulations. Solid waste host fees are utilized to cover the postclosure cost.

**Note 19 – Component Units**

**A. Lowndes County Board of Health**

Basis of Presentation The financial statements of the Lowndes County Board of Health (Board) have been prepared in accordance with generally accepted accounting principles (GAAP) for local governmental units and, accordingly, reflect all significant receivables, payables, and other liabilities. The Board uses funds to report on its financial position and results of its operations. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect amounts reported in the financial statements. Actual results may differ from those estimates.

Basis of Accounting The accrual basis of accounting is followed by the Board. Revenues are recognized when an exchange takes place or when all eligibility requirements have been satisfied.

Cash and Cash Equivalents Cash and cash equivalents of the Board are not a part of the County’s cash management pool and are reported as part of “Cash and Cash Equivalents in Segregated Accounts”.

**Note 20 – Insurance Pools**

**A. ACCG – Group Self-Insurance Workers Compensation and Interlocal Risk Management Agency**

The County may be subject to risk of loss due to torts; theft of , damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County covers these risks through the purchase of insurance coverage through ACCG- Group Self-Insurance Workers’ Compensation Fund and the ACCG-Interlocal Risk Management Agency. These are public entity risk pools currently operating as common risk management and insurance programs for member local governments.

As part of these risk pools, the County is obligated to pay all contributions and assessments as prescribed by the pools, to cooperate with the pool’s agents and attorneys, to follow loss reduction procedures established by the funds, and to report as promptly as possible, and in accordance with any coverage descriptions issued, all incidents which could result in the funds being required to pay any claim of loss. The County is also to allow the pool’s agents and attorneys to represent the County in investigation, settlement discussions, and all levels of litigation arising out of any claim made against the County within the scope of loss protection furnished by the funds.

LOWNDES COUNTY, GEORGIA  
NOTES TO THE FINANCIAL STATEMENTS

**Note 20 – Insurance Pools - Continued**

The funds are to defend and protect the members of the funds against liability or loss as prescribed in the member government contract and in accordance with the worker’s compensation law of Georgia. The funds are to pay all cost taxed against members in any legal proceeding defended by the members, all interest accruing after entry of judgment, and all expense incurred for investigation, negotiation, or defense.

Settled claims in the past three years have not exceeded the coverage. There was no significant reduction in insurance coverage from the prior year.

**Note 21 – Joint Ventures**

The County and the City of Valdosta jointly govern the Valdosta-Lowndes County Airport Authority and the Valdosta-Lowndes County Conference Center and Tourism Authority as is described in Note 1 - Reporting Entity. The County does not retain an ongoing financial interest or responsibility in the Valdosta-Lowndes County Airport Authority.

The County, in conjunction with cities and counties in the (10) county South Georgia area are members of the Southern Georgia Regional Commission. Membership in a Regional Commission is automatic for each municipality and county in the state. The official Code Georgia Section 50-8-34 (Georgia Planning Act of 1989) provides for the organizational structure of the Regional Commission’s. Each county and municipality in the state is required by law to pay minimum annual dues to the Regional Commission. The County paid annual dues in the amount of \$68,239 to the Regional Commission for the year ended June 30, 2015. The Regional Commission Board membership includes the Chief elected official of each county and the Chief elected official of each municipality. The County Board members and municipal Board members from the same county elect one member of the Board who is a resident (but not an elected or appointed official or employee of the County or municipality to serve as the non-public Board member from a County.

The Georgia Planning Act of 1989 (O.C.G.A. 50-8-34) defines Regional Commissions as “public agencies and instrumentality’s of their members”. Georgia laws also provide that the member governments are liable for any debts or obligations of a Regional Commission beyond its resources. (O.C.G.A. 50-8-39.1)

Environmental Protection Agency and will receive some funding from them for the clean up cost. There will be continued monitoring of the site and the County will incur the cost for that monitoring.

The County participates in federal and state assisted grant programs subject to program compliance audits by the grantors or their representatives. It is the County’s opinion that no material unrecorded liabilities will arise from audits previously performed or to be performed. Regardless, receipt of these federal and state grant revenues is not assured in the future.

*Commitments.* The County is contingently liable for the obligations of two authorities through funding agreements. The first is with the Valdosta-Lowndes Development Authority guaranteeing the funding necessary for the repayment of Valdosta-Lowndes Development Authority Industrial Development Revenue Bonds, Series 1997, in the aggregate principal amount of \$5,000,000 and Valdosta-Lowndes Development Authority Industrial Development Revenue Bonds, Series 2014, in the aggregate principal amount of \$15,000,000.

*Commitments.* The second funding agreement is with the Hospital Authority of Valdosta and Lowndes County, Georgia guaranteeing the funding necessary for the repayment of Hospital Authority of Valdosta and Lowndes County, Georgia Revenue Certificates, Series 2014B, in the aggregate principal amount of \$148,280,000. The certificates are to be retired from revenues generated from the operations of South Georgia Medical Center.

*Litigation.* The County is a defendant in a number of claims and lawsuits. The County Attorney has reviewed these claims and lawsuits, and has concluded that it is not possible to evaluate the probability of an unfavorable outcome or to estimate the amount of potential loss. As a result and pursuant to Financial Accounting Standards Board Statement No. 5 (Accounting for Contingencies), no liabilities have been recorded. County management is of the opinion that any actual losses will not be material to the County.

*Liability Insurance.* The County acquires insurance for liability claims. The County is responsible for the first \$2,500 per occurrence for general liability and the first \$5,000 per occurrence for Public Officials Liability, Law Enforcement Liability, errors, and omissions

**Note 24 – Accountability**

*Deficit Net Positions and Fund Balances*

The following fund had a deficit at June 30, 2015:

Enterprise Fund:

Special Tax Lighting District Fund – The net position deficit of \$118,830 is due to rising utility cost. The Board of Commissioners are reviewing different fee structures to fund the deficit.

LOWNDES COUNTY, GEORGIA  
 NOTES TO THE FINANCIAL STATEMENTS

**Note 25 – Assignment**

Georgia code section 48-8-91 requires local governments collecting local option sales tax to calculate a reduction of the local millage rate based on the prior year collections of the local option sales tax. The assignment of fund balance for property tax roll back, accounts for the annual collection of local option sales tax fund that will be used in the calculation for the next year’s millage rate reduction.

**Note 26 – New Fund**

A new capital projects fund which is titled the CDBG Grant Fund was established to account for grant funds to be used by a nonprofit organization for a new facility used to store food for those in need.

**Note 27 – Restatement**

LOWNDES COUNTY, GEORGIA  
NOTES TO BUDGETARY COMPARISON SCHEDULES  
For the Year Ended June 30, 2015

**Note 1 - Budgetary Basis of Accounting**

While reporting financial position, results of operations, and changes in fund balances on the basis of generally accepted accounting principles (GAAP), the Budgetary Basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Statements of Revenues, Expenditures, and Changes in Fund Balance—Budget and Actual for the general and major special revenue funds are presented on the Budgetary Basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP Basis are as follows:

1. Encumbrances are treated as expenditures under the Budgetary Basis.

There were no encumbrances for any fund for the year ending June 30, 2015.

## NONMAJOR GOVERNMENTAL FUNDS

### SPECIAL REVENUE FUNDS

The Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted for specific purposes.

**Special Services Fund** – To account for the revenues and expenditures that are derived and expended in the unincorporated areas of the County.

**Commissary Fund** – To account for funds received through commissary services at the jail.

**Seizures Special Revenue** – To account for funds received through drug seizures.

**Hotel/Motel Tax** – To account for tax revenue accessed for hotel/motel accommodations.

**Intergovernmental Grants** – To account for various grant revenues received.

**Jail Operations** – To account for funds accessed with fines and designated for the operations of jails.

**911 Emergency Telephone** – To account for funds collected and designated for the operations of the 911 emergency services.

**Drug Abuse Treatment** – To account for funds accessed with fines and designated for drug abuse education and treatment programs.

**Victim Assistance** – To account for funds accessed with fines and designated for the assistance programs for victims of crime.

**Law Library** – To account for funds accessed with fines and designated for the maintenance of a law library.

## **NONMAJOR GOVERNMENTAL FUNDS**

### **CAPITAL PROJECT FUNDS**

The Capital Project Funds account for financial resources to be used for the acquisition or construction of major capital facilities.

**Capital Projects Special Sales Tax VI Fund** – To account for the special purpose local option sales tax that was renewed for the sixth time by referendum. The revenue is restricted to the stated purposes of the referendum.

**Capital Projects Judicial Complex & Jail Fund** - To account for the funds borrowed for the building of new Judicial and Administration Complex.

**Capital Projects CDBG Grant Fund** – To account for grant funds received from the Georgia Department of Community Affairs for the construction of facilities for a nonprofit organization that gathers food for those in need.

**Capital Projects Public Roads Fund** – To account for LMIG road funds from the Georgia Department of Transportation. The revenue is restricted for road and bridge work.

**Capital Projects Special Sales Tax V Fund** – To account for the special purpose local option sales tax that was renewed for the fifth time by referendum. The revenue is restricted to the stated purposes of the referendum.

Note: Includes General and Special Revenue Funds.

Property taxes beginning in 2012 include the county tax levies for the Valdosta-Lowndes County Development Authority and the Valdosta-Lowndes County Parks and Recreation Authority.

Effective in January 2008, the County accommodation tax includes tax collected outside of city limits that have their own hotel/motel tax.

Effective in January 2013, sales tax is no longer collected on manufacturing energy usage. Effective April 1, 2013, sales tax is no longer collected on vehicle sales. The sales tax was replaced by a Title Advalorem Tax (TAVT) at the time of sale which replaces annual advalorem taxes on vehicles purchased from April 1, 2013 forward.

Each city government provided information for their respective city.

Notes:

Overlapping governments are those that coincide with the geographic boundaries of the County. This schedule estimates the portion of outstanding debt of those overlapping governments that is borne by the residents and businesses of Lowndes County. The County government represents all taxpayers including those living in the cities and therefore 100% of the debt is estimated to be overlapping. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt of each overlapping government.

LOWNDES COUNTY, GEORGIA  
NOTES TO THE SCHEDULE OF EXPENDITURES  
OF FEDERAL AWARDS  
FOR THE YEAR ENDED JUNE 30, 2015

NOTE 1. GENERAL

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal financial assistance programs of Lowndes County, Georgia (the "County"). The County receives pass-through financial assistance from several state agencies.

NOTE 2. REPORTING ENTITY

The authoritative criteria for determining the programs, organizations and functions of government included in the financial statements of the County are as follows: oversight responsibility, including selection of governing authority, designation of management, and ability to significantly influence operations; accountability for fiscal matters, including budget, surplus/deficits, debt, fiscal management and revenue characteristics; scope of public service; and special financial relationships.

NOTE 3. BASIS OF ACCOUNTING

The accompanying Schedule of Expenditures of Federal Awards is presented using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., both measurable and available. Available means collectible within the current period or soon enough thereafter to pay current liabilities.

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Commissioners  
Lowndes County, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Lowndes County, Georgia as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise Lowndes County, Georgia's basic financial statements, and have issued our report thereon dated January 27, 2016. Our report includes a reference to other auditors who audited the financial statements of the Lowndes County Board of Health and the Valdosta-Lowndes County Parks and Recreation Authority as described in our report on Lowndes County, Georgia's financial statements. This report does not include the results of the other auditor's testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

### Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Lowndes County, Georgia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Lowndes County, Georgia's internal control. Accordingly, we do not express an opinion on the effectiveness of Lowndes County, Georgia's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in

internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Lowndes County, Georgia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

To the Board of Commissioners  
Lowndes County, Georgia

### **Report on Compliance for Each Major Federal Program**

We have audited the compliance of Lowndes County, Georgia, with the types of compliance requirements described in *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Lowndes County's major federal programs for the year ended June 30, 2015. Lowndes County, Georgia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

The County's basic financial statements include the operations of the Lowndes County Board of Health, which received \$5,258,530 in federal awards that is not included in the schedule during the year ended June 30, 2015. Our audit, described below, did not include the operations of Lowndes County Board of Health because the component unit engaged other auditors to perform an audit in accordance with OMB Circular A-133.

### ***Management's Responsibility***

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

### ***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for each of the Lowndes County, Georgia's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform

the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Lowndes County, Georgia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Lowndes County, Georgia's compliance.

### ***Opinion on Each Major Federal Program***

In our opinion, Lowndes County, Georgia, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

### **Report on Internal Control over Compliance**

Management of Lowndes County, Georgia, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Lowndes County, Georgia's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Lowndes County, Georgia's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.
