### Overview of Georgia Election Night Reporting

Georgia Secretary of State uses an online tool called Election Night Reporting (ENR) to display results from elections on a website. The Web interface provides visitors with a graphical view of in-depth state and county results. Visitors are presented with a breakdown of votes received for a choice by contest. Maps illustrate the counties reporting, voter turnout, and results by county. A reporting area provides downloadable reports and custom filtering of results.

### How do I access Election Night Reporting?

Election Night Reporting can be accessed by visiting the Georgia Secretary of State Elections' website at <http://www.sos.ga.gov/Elections/> and [General Primary/General Non-Partisan/Special Election – July 31, 2012.](#)

### When and how often will the results be updated?

Once the precinct polling locations have closed, the results are reported by the county. The state aggregates results and then begins reporting results to the public via the ENR tool. Updates occur throughout the night until all counties have reported final election night results.

### How do I navigate Election Night Reporting?

The following pages will guide you through how to navigate the ENR tool.

We will review the following areas:

- Home Page
- Synopsis Area
- Summary Tab
- Counties Reporting Tab
- Voter Turnout Tab
- Reports Tab
- Viewing County Results

## Home page

When you initially access ENR, you will see a page that resembles the following. This is the ENR home page. From the ENR home page, you can access state and county results. This guide shows you how to navigate the state results, but navigating the county results is similar. The notable difference is that state results are reported by county and the county results are reported by precinct.

## Election Night Reporting Guide

Pointing to a county on the state map with your mouse displays the county name.

The screenshot displays the Georgia Election Night Reporting website interface. At the top, there are two tabs: "Statewide Results" (selected) and "Results by County". Below the tabs, a table provides election details:

General Primary/General Nonpartisan/Special Election July 31, 2012	Registered Voters: 1,274,568	Counties Partially Reported: 6 of 159
Website last updated 7/23/2012 11:52:00 PM EDT	Ballots Cast: 54,654	Counties Completely Reported: 93 of 159
	Voter Turnout: 4.29 %	Counties Percent Reported: 58.49 %

Below the table, a yellow banner reads "UNOFFICIAL RESULTS" and "Provisional ballots are NOT included". Underneath is a legend with three items: "Counties Not Participating" (grey circle), "Counties Participating" (green circle), and "County Certified Results" (orange circle). The main area features a map of Georgia with county boundaries. A yellow callout box with a white arrow points to Cherokee County, which is labeled "Cherokee".

Select the county you want to view by clicking the county on the map or selecting it from the list below the map. The county results page will open in a new browser window.
